Enabling businesses of various sizes realise the benefits of the latest Enterprise Voice Collaboration platforms and solutions, whilst leveraging their existing technology investment.

SIP TERMINATION

Why ViTIC SIP Termination?

Whether over a private network, Internet, or SIP (Session Initiation Protocol) trunking, ViTIC provides a scalable, flexible, and cost-effective calling solution for your business

SIP Trunking is an easy, cost-effective way of managing your telephony requirements.

Operating one of Australia's largest voice processing networks. With capacity for over 3,000+ concurrent telephone calls, ViTIC's SIP Trunking service will ensure you're always in touch with your customers day and night.
